Factory equipment that fits

Workplace of the Future

Apfel – solutions in metal

We have been active as a metalworking company in the development and production of professional factory equipment for the past 25 years.

Well-engineered products, proven and tested in daily work situations, are the result of our long-standing know-how and last but not least the continuous development in technology and the choice of sound materials and machining.

The principles of our company philosophy are framed in the optimization of production processes, the increase in storage capacity and efficiency as well as the reduction of access times.

In order to meet the highest level of customer satisfaction and quality all our products are produced, assembled and made ready for dispatch exclusively in our production plant in Dossenheim near Heidelberg, Baden-Wurttemberg.

On the following pages see for yourself a comprehensive range of practical high quality storage solutions that convince with expertise and diversity.

WKS – The tool cabinet in a class of its own

The Apfel tool cabinets of the WKS series assure maximum organization at minimum space requirements. Thanks to vertical drawers, the tools are always ready-to-hand.

Direct access to the tooling from both sides provides increased safety as reaching over the tools is eliminated.

Perfectly tailored fittings with optimal space use ensure a protective storage of your tooling. Choose your fittings out of a broad product range of handreds of tool retainers.

The robust steel construction of 3 mm sheet metal and travelling castors allow top payloads of up to 5,400 kg per cabinet. The castors guarantee the smooth and safe running of the vertical drawers.

Safe and functional technology made in Germany

First class components, best grade materials and high-quality processing guarantee maximum functionality and durability.

The production, mounting and dispatch of all WKS tool cabinets is exclusively implemented at our German production plants.

As a result of long-standing know-how in construction and production we offer you product solutions that bear maximum loads and charges. Manifold technical solutions ensure a time-saving, clean and safe handling of your tooling.

Integrated transport notches allow the easy relocation of your tool cabinet by lift truck or cart when empty.

Increased operational safety through direct both-sided access to the tools

Maximum payloads and safe guidance of the drawers thanks to travelling castors

Integrated transport notches allow the easy relocation by lift truck when empty

Useful storage space for small parts and measuring tools in each drawer

Boreholes in a 25 mm pattern allow the variable mounting of tool retainers

All drawers are individually lockable and are equipped with labeling fields

WKS tool cabinets technology and features

The suitable cabinet dimensions for your individual stock requirements

The WKS tool cabinets are available in different widhts, heights and drawer versions.

We produce all cabinet formats in a standard depth of 1,050 mm as well as in a extended depth of 1,300 mm.

So you will find the perfect one which fits to your room conditions and the quantity of tools you want to store.

Whether the only 660 mm wide WKS 013, which also fits in the closest niche, the WKS 006, which offers space for hundreds of tools with a frontal width of one meter, or the WKS 005, which even stores biggest and heaviest tools – we have the right cabinet fitting to your needs.

The robust construction of powder-coated 3 mm sheet metal and the stable travelling wheels, which arrange a real smooth run and safe guidance of the drawers, allow highest lifting capacities up to 5,400 kg per cabinet resp. 1,800 kg per drawer.

Heavy-duty storage systems

WKS tool cabinets with 180 mm vertical drawers

All WKS tool cabinets are powder-coated in blue structure RAL 5010 (casing) and white structure RAL 9002 (drawers).

The entry models with 3 vertical drawers of 180 mm for well-arranged, safe and clean storage of your tools even at a minimum of space.

Our classics with five vertical drawers. Proven and tested, with sound technology, minimum space requirements and maximum stock capacity.

All your work utilities in just one tool cabinet

The different drawer versions and the large variety of configurations allow to create a clearly arranged storage place according to your requirements.

With our specially designed tool holders we offer perfect solutions for nearly all tool types used in the metal processing industry.

Furthermore, we provide additional components for an individual improvement of your tool cabinet.

Perforated panels, trays with storage bins, bulk trays and even holders for your working documents, you will find almost everything you need in our extensive range of accessories.

Store all necessary materials you need at your workplace in only one cabinet to save time and ways.

Storage of milling and turning tools

WKS tool cabinets with 300 mm vertical drawers

All WKS tool cabinets are powder-coated in blue structure RAL 5010 (casing) and white structure RAL 9002 (drawers).

The cabinets for extreme loads. Three vertical drawers with special ballbearing plastic rollers allow maximum payloads of up to 5,400 kg per cabinet.

Two different drawer types (1 x 300 mm, 3 x 180 mm) in only one cabinet allow the storage of diverse tools in a well-arranged, clean and safe way.

The heavyweight for extreme loads

With our "Panzer" drawer you store even heavy tools in a safe and gentle way. An effective width of almost 300 mm offers adequate storage volume for large tooling.

High grade components, sound processing and extremely robust, ball-bearing plastic rollers guarantee maximum stability and long-life, proper functioning.

Various tool retainers with different fittings and flexible mounting allow the individual arrangement of your storage cabinet according to your operational requirements.

The drawer that withstands even highest loads!

The Apfel scrap box – space saving storage and secure disposal of your sheet metal scrap

The scrap metal box, which has been especially constructed for metalworking companies, presents the safe and functional method for contemporary handling of sheet metal scrap.

The sound steel construction comes with a drop bottom that opens up easily and safe by hydraulic dampers to allow the easy discharge of metal scrap by lift truck without perilous shifting.

After its discharge the scrap box is put back down to the ground. Integrated rollers entirely close the bottom hinges. Finally the opening locks are to be reattached - that's it.

The hinged drop bottom allows the easy discharge of sheet metal scrap into a container by lift truck.

Apfel scrap metal boxes are equipped with hydraulic dampers that allow a slow and controlled opening of the bottom hinges.

Professional disposal of sheet metal scrap

The Apfel SBX scrap metal box is a solid steel construction that comes with a drop bottom, which allows an easy discharge by lift truck or crane.

During the transport the box is secured with additional safety locks. On the spot, the locker bolts can be removed with just a few twists.

In order to discharge the scrap metal box, the trigger bracket is particularly important. When placing the scrap metal box on the edge of the container, it automaticly opens the bottom flaps. Hydraulic cylinders with an integrated compensating diaphragm ensure a smooth stopping of the bottom flaps to enable a slow and controlled emptying.

After the disposal of the sheet metal scraps the opened box gets set back on the ground, while the castors on the bottom flaps close it completely.

Once this has been done, the scrap metal box is automatically locked and ready to use again.

Save time, space and money!

The Apfel tool cabinet series WKS represents real economic advantages in many respects. The vertical drawers allow easy access, keep tools dust free and reduce access times by easy handling. The cabinets especially minimise storage space. A WKS 002 with a storage capacity of 480 tools SK 40 requires rarely 1/6 front width of conventional systems, such as roll-front units or winged-door cabinets whose purchasing costs per storage space are significantly higher. Optimize your tool storage and create space for additional machine plants. The room saved may be used for shrink fit or set-up machines without disclaiming handling comfort, clarity and dust free storage!

Protective, clean and well-arranged storage of milling & turning tools

The perfectly tailored tool retainers by Apfel allow a safe storage of tongs, turning and milling tools.

The screwed tool carriers are equipped with coloured reduction hooks for each tool type such as SK, HSK, VDI, ABS or Capto.

The construction allows the individual setup of your tool cabinet, according to your requirements.

Our flexible construction guarantees an easy and fast exchange of hooks and tool retainers.

More than 20 combinations of hooks in only 2 diameters of tool retainers allow the simultaneous storage of all known cutting tool types in one tool cabinet system. Available for all common cutting tools

Universal tool trays for WKS tool cabinets (180 mm drawers)

For the storage of most diverse stock – for optional assembly with multi-purpose equipment.

WKH 502

Tool tray 30 mm high, for assembly with partition plates, collet inlay sets, storage boxes or drilling inlay blocks fitting to WKS

Store your deep hole drills in a professional manner!

Our ingenious storage principal stores up to 520 drills in only one cabinet. The drills are embedded in special floor plates at the drawer bottoms and fixed in the tool carriers with reducing sleeves. So they can be removed easily and quickly at any time. To ensure a comfortable storage, four different reducing sleeves with inner diameters between 10 and 25 mm are available.

Seperate accessories:

The material-friendly, safe and clearly arranged storage of your broaches

With the WKS tool cabinet you store your broaches easily accessible and gentle to materials. Due to our special storage system with adjustable crossboards you can store bigger broaches in one row or broaches with smaller diameters in two rows. Plastic covered holding bars enhance smooth gripping and easy handling to protect your valuable tools.

Enhance the possibilities of your lifting system!

Numerous companies of different industries use our flexible all-round programme equipping their lifting systems.

Whether in the spare parts shipment, the tool output or the logistic centre - Apfel components arrange for maximum utilisation of space, suitable tray loading and, therefore, optimal business procedures.

Expand your storage potential and shorten your access times with an individual division and the operating-adapted combination of your different stored goods.

Apfel lift equipment – the complete range of accessories for maximum storage capacity

Slot grid frames with length and cross dividers allow a nearly step-free space segmentation.

With storage boxes in many different sizes you stow away your picking goods and small-parts clearly structured and transport safe.

Tool holders with precise fitted and screwed plastic adapters store cutting tools of all shank types.

With carrier frames you set the storage level of your holders and create space for larger tools.

Use all the storage possibilities of your lifting system and load your trays in order to an efficient and sustainable reducing of your access times!

Professional storing of your cutting tools

Due to the precise fit in screw-fastened toolholders your tools will be stored material-friendly and save.

Coloured plastic hooks for the relevant tool types like SK, HSK, VDI, ABS or Capto, ensure a perfect hold and an easy assignment of your tools.

Over 20 different hook combinations in two reception diameters store all relevant cutting tools in your lifting system.

For the storage of collets and special tools we offer a large selection of special tool inlays.

Lift equipment slot grid system

Flexible space sectioning for perfect commissioning

With the special division components for lift systems you stock large quantities of different pieces clearly laid out and needs-oriented.

Screwed dividers in various heights make a high storage volume, length and cross dividers with plugable slot grids arrange for flexibility for the compilation of your shelves.

The user-faced dividers are angled to allow their labeling, the edge of the material is folded to avoid injury.

Partition systems available in all sizes

The tool trolleys for the professional use

Several of our clients use our tool trolleys in their production, because they can be easily and quickly adapted to the individual working conditions.

With hook systems it's easy to organize huge quantities of tools, different materials stowed in the drawers and even the backside of the trolleys is used intensively.

With it's special equipment, our mobile PC trolley is also in action in many companies as a mobile workstation.

Everywhere data is entered, measurements were performed or disorders must be removed, the rolling computer workplace is the ideal assistant in your company.

Both trolley tipes are are powder-coated in blue RAL 5010 (casing) and white RAL 9002 (drawer).

The tool trolley with an integrated adjoining cabinet

Also available in other drawer combinations

Series V – the universal storage cabinet for a clean and safe keeping

Numerous widths of the drawers and three different depths of the cabinets offer all possibilities of complete storage systems with an optimal use of available space.

Both-side rubber lips provide clean storage surroundings, stainless steel handle bars an easy and sound handling.

Drawers with running wheels and the solid construction allow payloads of up to 500 kg per drawer.

The overall height of the series V is 2,220, the clear usable height is 1,900 mm, the pattern of the boreholes for the variable mounting of the storage trays is 25 mm.

All Series V models are powder-coated in charcoal gray RAL 7021 (casing) and white RAL 9002 (drawers).

All models are easy to move with a lift truck when empty.

Cabinet versions X with 710 mm width

(VXK, VXS, VXT)

Cabinet versions S with 920 mm width

(VSK, VSS, VST)

Cabinet versions M with 1,025 mm width

(VMK, VMS, VMT)

Cabinet versions L with 1.340 mm width

(VLK, VLS, VLT)

Drawer slide with track rollers for an easy opening and closing

The travelling plastic wheels are also available in ESD-conform version

Cylinder lock for the separate interlocking of each drawer

The vertical storage cabinet for individual configuration

Choose your perfect one of our many variants in four different corpus widths and three different depths each.

24 different drawer combinations offer all possibilities to maximize the use of the cabinets volume.

Identity code of measurements:

Width (mm)	Depth (mm)
X = 710	K = 765
S = 920	S = 1,135
M = 1,025	T = 1,490
L = 1,340

Set O – the vertical storage cabinet for file folders

Store up to 300 file folders in only one cabinet! The vertical drawers with five storage trays each (included in delievery) allow a quick and easy access and the maximum use of space, therefore the Set O is an efficient archiving system.

File folders are not included in delivery.

Set K1 – the vertical storage cabinet with boxes

Increase the efficiency of your storage system with our Set K. Host large quantities of small parts on eleven storage trays each drawer (included in delievery) in up to more than 700 boxes in just one cabinet!

The different cabinet models are fully equipped with stable, removable storage bins No. 11 or No. 50.

The storage bins can be labelled and due to their matching fit and extreme payloads they enable an optimal overview and maximum stability!

Bin No. 11 Dimensions: 160 x 100 x 75

Set S – the vertical storage cabinet with bulk trays

Host large quantities of bulk material and small parts with a perfect overview, always clean and ready to hand in ten bulk trays each drawer (included in delievery).

The solid bulk trays made of sheet steel can be grouped by using dividers which can be fitted easily at grid spacings of 25 mm. So the maximum use of current storage capacities is guarenteed.

Create tidiness at your company in no time at all and fill up your coolants clean, fast and safe

With the Apfel cleaning station your cleansing material is available all the time and everywhere. The practically shadowboards give a clear guidance for the stock positions. So everything is easy to find and always at its place. Four steering rollers with integrated brakes enhance a perfect handling and the highest security.

Also the Apfel coolants cart with two smooth running block rollers and two steering rollers with brakes ensure easy operation and highest safety standards. Mix up to 800 liters of coolant directly where you need it – on the machine. If the canister is empty, it can be replaced easily.

RGS 5000 "both-sides"

the same as above, but equipped on both sides (incl. 4 brushes, 2 scrubbing brushes, 2 dustpans, 2 sets shadowboards, 2 boards for cleaning products) Order No. 2332183 749.00

Store your workshop trolleys clean and safe — The Apfel workshop trolley station

No matter how many workshop trolleys you want to store or which dimensions you need, we manufacture a station according to your specifications.

Lockable and due to its blinds with rubber lips nearly dust-free, this station is the perfect solution to store your workshop trolleys permanently safe and clean.

KRS Kanban shelf cabinets – Need-specific and flexible

Choose from diverse sizes, compositions and assemblies to set up your individual storage system fitting the material flow of your line production and profit from the highly efficient kanban principle.

Mount the storage shelves individually in a 50 mm pattern and tilt the shelves into diverse angles. Each KRS model comes with 4 easy-going guided rollers with brakes allowing trouble free transport and fixation at its place of usage.

Powder coating in all colour combinations (RAL)

In our modern plant we powder-coat even big parts with precise, consistent colouring and perfect structure.

Choose your desired colours from the whole RAL range and customize your equipment according to your company colours.

Realize your individual image and create an inviting and professional environment for the employees and visitors of your company.

For further information we place our services at your disposal.

Factory equipment in your special colours

For numerous renowned industrial companies from the widest possible variety of sectors, we produce storage systems and equipment according to their colour guidelines.

Create a pleasant and colour-accentuated working environment in your company.

Individual fitting to your machines and production facilities, we manufacture the equipment components in your desired colour combination at a low extra charge.

Realize a uniform overall appearance that reflects the professional standard of your company even in your workrooms.

Customized systems with optimal product benefits

For many of our clients we manufacture transport systems, storage solutions and logistic systems according to their facility-specific requirements.

No matter if the reduction of access times, the optimization of space or the material structure due to specific requirements is in focus – with our individually

manufactured equipment we satisfy the highest demands in sustainable and proper function, maximum safety and tailor-made engineering.

Because of our high vertical range of manufacture in metal processing and surface treatment, we produce nearly all projects of our clients in-house and achieve greater efficiency due to shortened workflows.

If large-dimension complete systems of carrier elements, the fitting components of a high-bay storage or the optimized layout for the partitioning of lift trays – we design, construct and realize compatible storage systems and commissioning solutions according to your operating processes, made to match the size of your business.

Shelf system with drawers for the storage of pharmaceutical products under deep-freeze conditions

Individual solutions for your special requirements

Take advantage of our great experience and practical approach to improve your workflow, to increase efficiency and to expand the storage capacities of your entire company.

Transport cart for the storage of precision tools

Lift tray for space-optimized storage of cutting tools

Cabinet system with vertical drawers and sorting aid to store medium format metal sheets

The ideal dimension for your storage purposes and operations

Whether you want to store enormous quantities of filigree small parts or large and heavy tools – our special solutions store your working materials always perfect.

We develop your storage system according to your needs and we built your product with highest standards of safety, function and lifetime.

Get started into a new age of factory equipment with the multifunctional workstation concept by Apfel that ensures a production process of rapid, unhindered access and that prevents useless secondary processing times.

Spring driven hose reel

Absolutely free of any loose hoses or cables on the floor and completely fed by overhead lever arms the Apfel workstation concept makes your welding workplaces and assembly sites appreciably tidy, fast and save.

Vice-set

Supply electritcity, compressed air, gas or any other operating material via overhead lever arms directly to your workstation and avoid safety risks like stumbling and tripping on cables or hoses left lying around.

Completely transportable by lift truck
